

**A GREAT REMEDY**  
For Sufferers From Piles.  
Dr. Redmond, a specialist in the study and treatment of Piles and rectal diseases, recently stated that the Pyramid Pile Cure, the new discovery for the cure of piles, was the most remarkable remedy he had ever seen or tried in one respect; and that was, the instant relief experienced in all cases, no matter how severe, from the moment the remedy was applied; this was the more surprising to him, because he had carefully analyzed the preparation and no trace of opium, cocaine or similar poison could be detected.  
Physicians look with great favor upon the Pyramid Pile Cure, because it is rapidly taking the place of surgical operations, and because it is so simple, so easily applied and contains no mineral or other poisons so commonly used in pile cures.  
Dr. Escherbrook reports that the Pyramid Pile Cure not only cures the various forms of Piles, but never fails to give immediate relief on the first application, no matter how severe the pain or discomfort may be.  
People who have suffered from piles for years are often astonished at the instant relief experienced from the first application. Another important advantage is the fact that anyone can use the remedy without detention from business or interference with daily occupation. Sold by druggists at 50 cents per package.

The conference then adjourned sine die.  
The afternoon was spent visiting the larger industries of the city. On Monday next, the delegates will depart on their forty-one days trip to various cities and industrial centers of the country. The trip will extend as far west as Milwaukee, Chicago and St. Louis and as far south as Nashville.  
**Dishonored Drafts.**  
When the stomach dishonors the drafts made upon it by the rest of the system, it is very low. Toned with Foster's Stomach Bitters, it soon begins to pay out vigor in the shape of pure, rich blood, containing elements of strength and health. As a sequent of the new vigor afforded the stomach, the bowels perform their functions regularly and the liver works like clock work. Malaria has no effect upon a system thus reinforced.

The senate committee on privileges and elections made an effort today to dispose of the claim of H. W. Corbett to the vacant senatorial seat from Oregon. **SENATE FINANCE COMMITTEE**  
Will Recommend Several Minor Amendments to the Wood Schedule.  
Washington, June 4.—The senate committee on finance today decided to recommend several minor amendments in the wood schedule, as a result of last night's hearing. Most important of these were the following: Increase in the rate of heavy timber and round timber used for spars (paragraph 12) from 1 cent to 1 1/2 cents per cubic foot; withdrawing the amendment striking out the house duty on kindling wood; increasing the rate on laths from 15 to 25 cents per thousand; restoring the house rate of 30 cents per thousand on shingles, which the committee reduced to 25 cents; restoring the special house rate on tonkinpicks and striking out the amendment withdrawing from the amendment to paragraph 184 (paving posts, etc.) which struck out the words "or other woods," the effect being to leave the house rate of 20 per cent ad valorem in effect. No change was made in the rate of 32 per thousand on sawed lumber.

Mr. Blackley, upon assuming the presidency, addressed the congress briefly. The committee on plans then presented a series of resolutions, which were unanimously adopted. These resolutions recommended an extension of the Philadelphia Museum; direct the clerical department to make a widespread distribution in Spanish, French, English and

**Blood Pure?**  
Is it? Then take Ayer's Sarsaparilla and keep it so. Isn't it? Then take Ayer's Sarsaparilla and make it so. One fact is positively established and that is that Ayer's Sarsaparilla will purify the blood more perfectly, more economically and more speedily than any other remedy in the market. There are fifty years of cures behind this statement; a record no other remedy can show. You waste time and money when you take anything to purify the blood except Ayer's Sarsaparilla.

So He Turns Him From Biblical Consolation, After the Manner of Death-Penitents When Convalescence Unexpectedly Sets In, and Makes Merry in His Cell—Negro Ravisher Legally Executed in West Virginia—Killer of Policemen Pays the Penalty in Georgia—Cyclones—Crime and Catastrophe.

San Francisco, June 4.—Theodore Durrant will not be hanged on next Friday. His attorneys have gained for him a new lease of life for four months, at least, and the condemned man made merry in his cell when he heard the cheerful news. He had become resigned to his fate, and his tearful eyes had turned to the Bible as his only solace, when information was received at the prison that Judge Gilbert, of the United States circuit court, had granted his attorneys permission to appeal to the United States supreme court from his order made on Wednesday, denying the application for a writ of habeas corpus.

The appeal was perfected today, when Theodore Durrant's father filed a bond in the sum of \$500, to cover the costs of the appeal. Even if the appeal should be dismissed early in the term, the thirty days allowed by the state law between the time when the day for execution is fixed and the day of execution would carry the matter pretty well toward the end of the year. The possibilities for further delay are so numerous that practically he has an insurable lease of life into the new year.

**SAFE TIL AUGUST THIRD.**  
San Francisco, June 4.—Late this afternoon Warden Hale, of San Quentin, was served with a citation issued by Circuit Judge Morrow, at the instance of Durrant's attorneys, ordering him to appear before the supreme court of the United States at Washington on August 3, this date being selected in order to properly bring the case upon the calendar. The effect of the citation is to stay the execution of Durrant, without regard to the opinion of the state attorney general. The latter official admits the service of a similar document upon Warden Aull, at Folsom, the date set, however, being October 4. Warden Aull is also cited to appear in the circuit court of appeals on June 25.

Durrant's attorneys regard their immediate belief as at an end, and are preparing for their next effort, which will be before the United States supreme court.  
**A NEGRO, BUT NOT LYNCHED.**  
Fairfax, Va., June 4.—James Lewis, colored, who was recently convicted of criminal assault on Mrs. Reidel of this place, was hanged at 5:30 this morning in the jail yard in the presence of about fifty people. Lewis was quite cool and walked to the gallows without assistance. There was no demonstration of violence on the part of the crowd.

The crime for which Lewis suffered the extreme penalty of the law was that of ravishing Mrs. Ida Reidel, a white woman, who lived with her son some miles below Alexandria, Va. The crime was a brutal one and stirred the indignation of the people of the surrounding country almost to the lynching point. Had the crime been committed in the city, the first two cases being unable to agree and in the last trial declaring him guilty and imposing the death penalty. He asserted his innocence until yesterday, when he admitted that he committed the assault and also confessed that he had at various times committed assaults upon three other women, for one of which he served a term in jail.

The other women were shot as a result of his bad aim. Elizabeth, with three bullets in her body, is dying at the city hospital. Clark escaped.

**HE KILLED POLICEMEN.**  
Columbus, Ga., June 4.—Henry White, aged twenty, was hanged here this afternoon. He died gasping. His companion in crime was his father, a drunken shoemaker, who was killed while resisting arrest after the triple murder.

**QUACK SURGERY.**  
Denver, June 4.—Dr. Lewis F. Preston was arrested today on a warrant charging him with the murder of David Frank, a cigarmaker from Brooklyn, N. Y. Dr. Preston is a consumptive specialist. It is said that his method of treatment is to run a trocar or hollow needle, through the walls of the chest and introduce an elastic wire into the lungs. Frank died under his treatment. When the huge glacier, which must be crossed to arrive at the sound, was reached, the men hurried ahead of their guide. They were last seen taking the left fork of the glacier instead of the right. A subsequent search showed that they had reached the edge of the floor of ice and, pausing on unsafe ground, the ice had broken, dashing them 500 feet to the beach below.

Tacoma, Wash., June 4.—News has been received here from Hong Kong that the beautiful widow of Dr. Rizal is now commanding a party of Philippine Island rebels, armed with rifles, making her headquarters at Nalc, Cavite province. Last month definite information was received that she and her company were in Cavite awaiting the expected activities of the Spanish troops in that section.

The Spanish minister at Tokio received telegrams May 16 stating that the Spanish had just won three victories in Cavite province, inflicting heavy losses on the rebels.

Mrs. Rizal was a step-daughter of a retired Hong Kong gentleman who went to Manila for his health. There his daughter met Dr. Rizal and married him against her parents' wishes. When her husband was captured and shot Mrs. Rizal determined to devote her life to the cause he had espoused and as soon as her preparations could be made she took the field.

**CAMPES IN MADRID.**  
Madrid, June 4.—The queen regent conferred last evening with the president of the senate, the Marquis Pazo de la Merced. The latter, after the conference, said that he had pointed out to her majesty that the continuance in office of Senor Canovas del Castillo would constitute the best solution of the crisis. This opinion he shared by the president of the chamber of deputies, Senor A. Pidal, who had a conference with the queen regent today. Marshal Martinez de Campos arrived here today and went immediately to the palace. But as he is not identified with any party he is not concerned in the crisis from a political standpoint and will give his attention to other questions, especially to the Cuban situation. Senor Francisco Sileira, the leader of the dissident Conservatives in the chamber, is among the politicians who have been summoned to the palace.

**A TECHNICAL HORSEWHIPPING.**  
London, June 4.—While Henry Labouchere, the editor of Truth and Radical member of parliament, was on his way from his residence to the house of commons today a young man accosted him and struck him several blows with a horsewhip. It was reported at first that the assault arose from the charges Mr. Labouchere brought against some of the people connected with the Transvaal raid but later it developed that the assailant of Mr. Labouchere is the son of Rev. George Brooks, otherwise known as the "prince of begging letter writers," whose doings were exposed in the columns of Truth. Brooks, who was formerly a Methodist parson, is said to have obtained the sum of \$40,000 within a period of five years by sending begging letters to cabinet ministers, dukes, archbishops, directors of the Bank of England, generals, admirals and it is said, to Mr. William Waldorf Astor. Brooks, who has also been dubbed "Boumy" Brooks from a grant of 200 pounds from the royal bounty fund voted every year by parliament to enable the queen to assist deserving literary men and women, brought a suit for libel against Mr. Labouchere, which resulted in a verdict in December last in favor of the editor, who is credited with having spent about \$200,000 during recent years in exposing frauds. The attack was merely a technical assault. Mr. Labouchere was not injured, and after remonstrating with his assailant, walked down the street with him.

**VON TAUSCH ACQUITTED.**  
Berlin, June 4.—Herr Von Tausch, the former chief of the secret political police, who has been on trial here for nearly two weeks past, charged with perjury, high treason and forgery, was acquitted today.

Ramon Von Lustrow, who was tried with Herr Von Tausch, and who was charged with defrauding the imperial army service fund and with forging a receipt for the purpose of willful imposition, was convicted. The public prosecutor, after the verdict, asked that a sentence of six months in prison be imposed upon Von Lustrow, in addition to the fifteen months' imprisonment to which he was sentenced on December 7, last, after having been convicted of libeling Baron Marschall Von Bieberstein, the minister for foreign affairs, and two years loss of civil rights.

The court sentenced Von Lustrow to two months' imprisonment, taking into consideration the fact that in certain cases he was tried for the secret political police, which employment, the court added, "made it almost impossible for a man to preserve his sense of honor." In conclusion, the presiding judge expressed the hope that after Von Lustrow had completed his imprisonment, he would lead an honorable life.

## A Life Saved.

**A FOND DAUGHTER WAS HIGH TO DEATH.**

**Frank B. Trout Tells a Reporter of How His Daughter's Life Was Saved. All Parents Should be Interested in This Narrative.**

Using as a nucleus for his investigation the rumor that the life of the daughter of Frank B. Trout, well known in Detroit, Mich., real estate circles, had been saved, he reported to called on Mr. Trout at his office, 108 Griswold avenue. Mr. Trout showed some hesitancy in giving his opinion for publication, but finally said: "Circumstances and a father's love for his child forced me to try Dr. Williams' Pink Pills for Pale People, but not until the whole medical profession had exhausted their skill. At the age of fourteen we had to take our daughter from school owing to her health. Before this she had been in the best of health, happy and in the best of spirits. She began to fall away and became pale and languid. She was so weak that she would fall down in a faint every time she tried to walk unsupported. The best of physicians attended her, but she continued to grow weaker and seemed to be gradually fading away."

"When she was fifteen she weighed only ninety pounds, and the doctors said it was anæmia. Several physicians said she might outgrow it, but that it would no doubt terminate in consumption. No doctor we had seen could help her, and we concluded ourselves, we must lose our child, as she was growing weaker every day."

"We had tried all the well-known remedies, and finally about a year ago I bought a box of Dr. Williams' Pink Pills for Pale People and took them home. That day I read of a case about the same as my daughter's, and decided to give them a trial, though I must confess I did not have much faith. Before she had taken all of the first box we noticed a change for the better. She was, however, gained strength daily."
